XP DAY 2003 BENELUX

XP DAY Benelux is a one day conference about Agile Software Development. The sessions are organised by people who have experience with agile methods, with a focus on practical knowledge and real world application. Audience size is limited and sessions are organised in an interactive way, so that everybody can fully participate in the event.

The XP/Agile Day Benelux conference is organised by AgileSystems vzw (non-profit organisation) in collaboration with
